annotation this important new work is a major analysis of the foundation of eric voegelin s political science barry cooper maintains that the writings voegelin undertook in the 1940s provide the groundwork for the brilliant book that is one of his best known the new science of politics at the time of that book s publication however few were aware of the enormous knowledge and accomplished scholarship that lay behind its illuminating although sometimes baffling formulations by focusing on several of the key chapters in voegelin s eight volume history of political ideas especially the studies of bodin vico and schelling cooper shows how those studies provide the basis for voegelin s thought investigating voegelin s study of oriental influences on western political ideas especially mongol constitutional law and his study of toynbee cooper seeks to demonstrate the vast range of materials voegelin used cooper contends that as with other great thinkers political crisis specifically the world war of 1939 1945 stimulated voegelin s intellectual and spiritual achievement he provides an analysis of voegelin s immediate concern with the course of world war ii his ability to understand those dramatic events in a large context and his ability to provide an insightful account of the causes the significance and the consequences of the spiritual and political disorder that was evident all around him in eric voegelin and the foundations of modern political science cooper makes the connection between voegelin s political writings of the 1940s and the meditative interpretations that began to appear with the publication of anamnesis and with the later volumes of order and history much more intelligible than does any existing discussion of voegelin scholars in intellectual history and political science will benefit enormously from this valuable new addition to voegelin studies

five hundred years ago the church of jesus christ underwent a reformation a lot happened after martin luther posted his 95 theses on the castle church door in wittenberg but the fallout was not simply the start of protestantism the roman catholic church also recast itself in response to luther s call for reforms and contrary to common belief martin luther did not set out to start a new church rather he was trying to reform the church that already existed by reemphasizing its essence namely the good news the gospel that jesus forgives and saves sinners the unity of the church was broken when the pope rejected this call for reform and excommunicated luther starting a chain of events that did lead to the institutional fracturing of christendom and to a plethora of alternative christian theologies but as many including conservative catholics now admit the church did in fact need reforming today the church including its protestant branches also needs reforming some of the issues in contemporary christianity are very similar to those in the late middle ages though others are new but if luther s theology can be blamed however unfairly for fragmenting christianity perhaps today it can help us recover the wholeness of christianity the religious climate in the early 21st century is simultaneously highly religious and highly secularized it is a time of extraordinary
